YOUR REF.

OUR REF.

DATE 17th April, 1961

Dear Sirs,

It is with pleasure that we introduce the new METABO Catalogue covering our complete range of Hand and Electric Tools which are available for immediate delivery from stock.

Regular METABO buyers will be pleased to note very many price reductions from our October list. For instance, the No.129 Hand Drill, as shown upon page 108, has been reduced from 22/9d. to 19/9d., which makes this Tool a very attractive proposition for you.

All METABO Tools are fully guaranteed and should it be necessary for you to return an Electric Machine for repair and/or servicing, we can supply you with another machine on loan whilst the repair and servicing is being promptly carried out at Kingston-on-Thames, where a complete stock of Spare Parts is held.

The METABO range is of first-class quality, and we should be pleased to arrange a demonstration of the Electric Tools on hearing from you, as we feel sure you cannot assess their fine quality until you have actually seen the machines in operation.

Once your customers have used METABO you will receive their repeat business. METABO Electric and Hand Tools are produced by one of the largest manufacturers in Western Europe. It is a range of first quality tools at prices within everybody's reach and we are fully confident of their fine quality and reliability which is acclaimed by METABO users all over the world. Incidentally, these Tools have been imported since 1927.

We look forward to receiving your orders from time to time which will have our careful attention, and remain

Yours very truly,

B. DRAPER & SON LTD.

17th April, 1951

Dear Sir,

It is with pleasure that we introduce the new METABO Universal cover and complete range of Hand and Electric Tools which are available for immediate delivery from stock.

Particular METABO covers will be pleased to note very many fine reductions from our October list. For instance, the No. 120 Hand Drill, as shown upon page 108, has been reduced from £25.00 to £12.50, which makes this Tool a very attractive proposition for you.

Our METABO Tools are fully guaranteed and should it be necessary for you to return to the Electric Machine for repair and/or servicing, we guarantee to do this without charge on loan until the repair and servicing is being properly carried out at Kingston-on-Thames, where a comprehensive stock of spare parts is held.

The METABO range is of first class quality, and we should be pleased to arrange a demonstration of the Electric Tools on hearing from you, as we feel sure you cannot assess their fine quality until you have actually seen the machines in operation.

Once your pleasure have used METABO you will realize their great usefulness. METABO Electric and Hand Tools are produced by one of the largest manufacturing in Western Europe. It is a range of first quality Tools as well as being every body's reach and we are fully confident of their fine quality and reliability which is guaranteed by METABO for all over the world. Incidentally, these Tools have been reported since 1937.

We look forward to receiving your orders from time to time which will have our careful attention, and remain

Yours very truly,
B. DRAPEL & SON LTD
